Zheng Yi Zheng

Manifesto

Dear friends, my name is Yi Zheng . I am running for the position of NUS National Conference Delegate. I hope to get your support. Compared with other students, I have the following advantages:

First: I have a clear advantage in language, because I speak Mandarin, Cantonese and English. I think this can help me communicate with you.

Second: I have a wealth of work experience in similar jobs. I have participated in the planning of many charity activities and group activities. I am also very good in organization and planning, and I am familiar with the school regulations, which also brings me many scholarship Opportunity, I hope that through my experience, I can help you win this type of scholarship opportunity

Third: I have enough patience for work and are willing to innovate. I think this is undoubtedly an advantage during this campaign, because I think students need a fresh life model and a happier learning environment. I am willing to listen to you Ideas and integrate them into our school life.

Fourth: I have obtained some professional certifications and successes in financial accounting and entrepreneurship, and have established good relationships with most of Lancaster's merchants. I hope to bring more convenience and benefits to your student life.

Of course, the position of the NUS Delegate is not easy. NUS Delegates attend NUS's National Conferences to attend, speak and vote on a variety of issues and in the elections, and they are there on behalf of their members. These tasks are undoubtedly tedious and challenging. But I believe I am ready to provide you with services and make your life in the college more enthusiastic and happy. Please support me to make me the NUS Delegate and vote for me.

Vote SYED #1 For NUS Delegate

Bee Morgan

Manifesto

My name is Bee Morgan and I am running to be your NUS Delegate for the year 2021.

As this is my second term of office as your Vice President Education, I feel that I am best suited to represent Lancaster students at a national scale. My detailed and varied knowledge of the higher education sector would be invaluable when voting and discussing student issues on a national scale. Last year, I was your lead delegate, and the policy Lancaster submitted based off the work I had done around sustainable student number growth successfully passed.

I am already experienced lobbying at this level (for example my “The Unfair Blame Game: The Return of the Students” policy covering the Government blame on students for the second spike in COVID-19) and this year I hope to discuss important topics like isolation and loneliness, getting students a quality education and lobbying the Government to put students first in decision making.

Running for this position is not to the detriment of the NUS Referendums happening, but I do believe we need the best voice for students at NUS while we are still a member.

Feel free to get in touch with me to understand more around my motivations for running!
